This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

THIS Edition differs in many respects from the former one, and it may be necessary here to state what the alterations are.

1st. As a Catalogue of this kind is for the most part used as a reference for the title, size, price, or publisher of a book, as much facility as possible should be given in order to arrive at the information required. At the suggestion, therefore, of those most interested in having a complete book of reference to assist them in conducting their business, the whole is now printed in one alphabet, because the classification under general subjects was considered unnecessary, unless carried out to an extent that would have been inadmissible in a work like the present.

2nd. The Christian names of the authors are now placed in alphabet. It is presumed that this alteration, and the manner in which the Catalogue is printed, will save much time, and enable those who are constantly referring to it, to find out the book required at a glance.

3rd. It has hitherto been the custom to place the Life or Memoirs of an individual under the name of the biographer. This plan has been discontinued. Therefore, on looking for the "Memoirs," "Life," &c., of celebrated persons, it will be found catalogued under their own name, and not that of their biographer.

4th. All translations of foreign authors are placed under their own names, and not the translator's.

5th. It has also been the custom hitherto to place Novels, Romances, &c., under the title of the book, and not the author's name. This has

been, in a great measure, adhered to in the present Edition, but a distinction has been made with regard to Scott, Bulwer, James, Marryat, Mrs. Gore, Mrs. Trollope, Miss Pickering, Mrs. Thomson, Mrs. Grey, and other voluminous writers, because circulating librarians, book clubs, &c., find it more convenient to ascertain all the works written by celebrated authors, in the formation of new libraries.

6th. It is desirable to point out, that books published in "Series," "Libraries," &c., are not twice entered in the Catalogue; therefore, when a book is not found in the body of the Catalogue, it will be requisite to ascertain if it has been published as one of a series. Much pains have been taken to make this portion of the Catalogue useful.

The Publisher hopes that the great exertions made to insure correctness will be well received by the trade and the public. To the former he offers his sincere thanks for the assistance he has received from them for the last two years, in carrying the work through the press. It is impossible entirely to avoid errors in a work of such magnitude, but he anticipates, with some confidence, that they will be found trivial, and by no means numerous.

It is intended to prepare a Classified Index to the Catalogue, which it is hoped will make the work as complete as possible.

T. HODGSON.

BENT'S LITERARY ADVERTISER,

Register of Books, Engravings, &c.

EXCLUSIVELY DEVOTED TO LITERATURE AND THE FINE ARTS.

Published on the 10th day of every month, price 7*d* stamped, and 6*d* unstamped; or annual subscription, 8*s*, *including* the Supplement, or Catalogue of all the New Books and New Editions published during the year.

CONTENTS:—Advertisements of New Books, New Editions, Books in the Press, Works on the Fine Arts, Miscellaneous Advertisements relating to all branches of Literary Property, &c., &c. A correct List is given of all the New Books and New Editions that are published in this Kingdom, with their Sizes and Prices. And a List of the New French Works.

THIS PERIODICAL has now been established forty-four years, and was the first organ of Publishers in announcing their productions to the Trade, the Public, &c. In producing monthly a list of those books that are published from month to month, immense care and research are necessary in compiling a correct one.

The LONDON CATALOGUE OF BOOKS has naturally its existence from this source, and it is not necessary to enumerate the advantages of a work of that description—they are too well known.

The Editor, therefore, takes this opportunity of recommending AUTHORS, PUBLISHERS, &c., to send announcements of their works for insertion in BENT'S LITERARY ADVERTISER, as it insures them a correct description in the LONDON CATALOGUE OF BOOKS. The importance of this is of much more consequence than is generally supposed, for in passing the present edition through the press, the facility of referring to the advertisement in the LITERARY ADVERTISER, and obtaining the correct title, author's name, &c., of the book, has been of incalculable benefit in insuring correctness.

London: Published by THOMAS HODGSON, Aldine Chambers, Paternoster Row, and by order, of all Booksellers and Newsmen.
